 **BEST CHOICES**
 **AVOID**

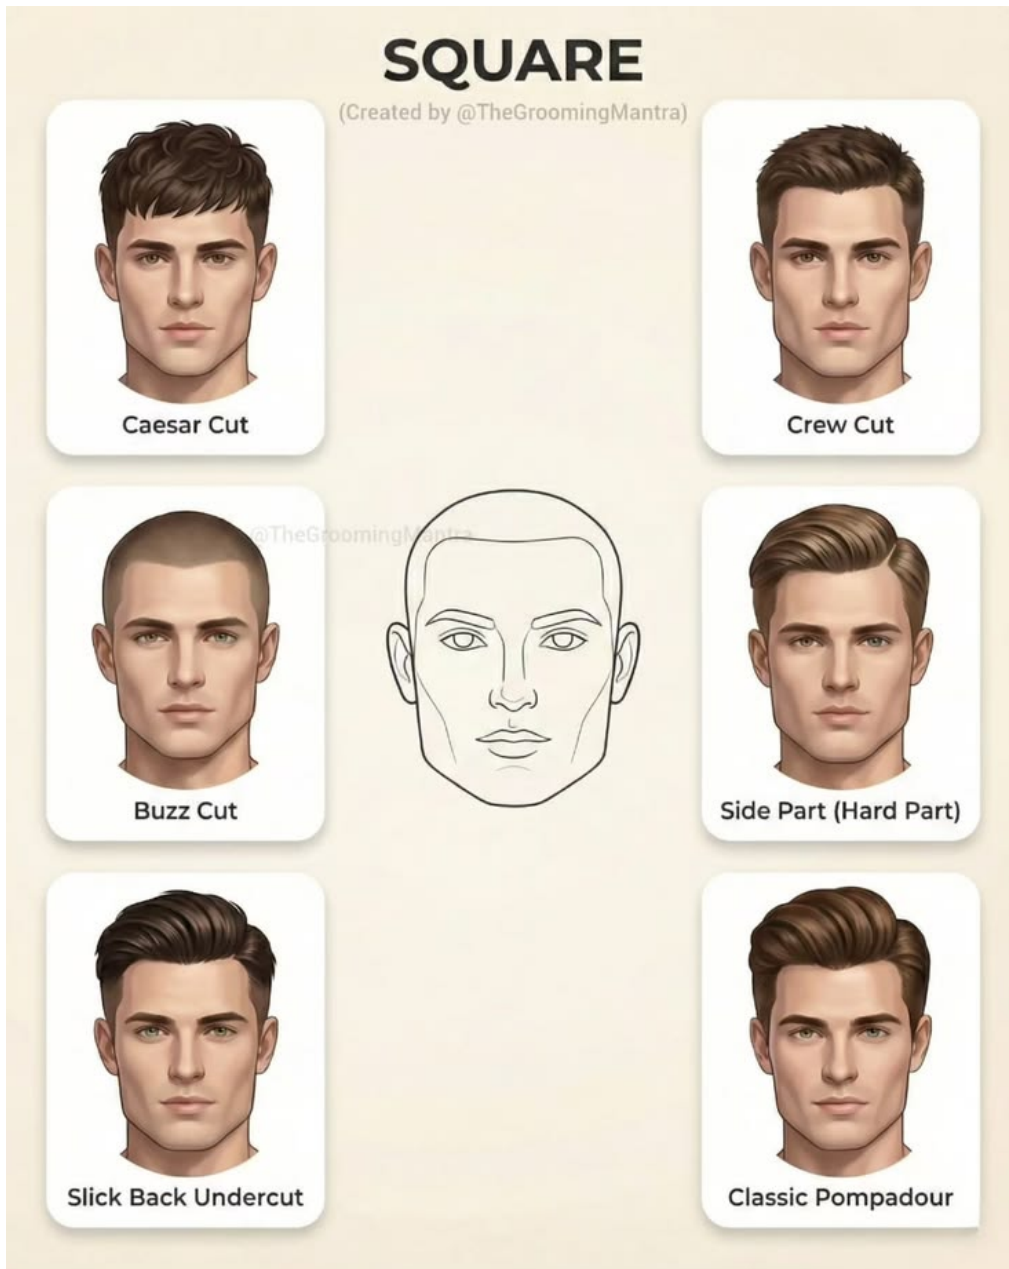

Oval Face

Well-balanced proportions with a slightly narrower jawline — the most versatile face shape. Almost any style works: short quiffs, pompadours, textured crops, faux hawks, curls, or a deep side part.

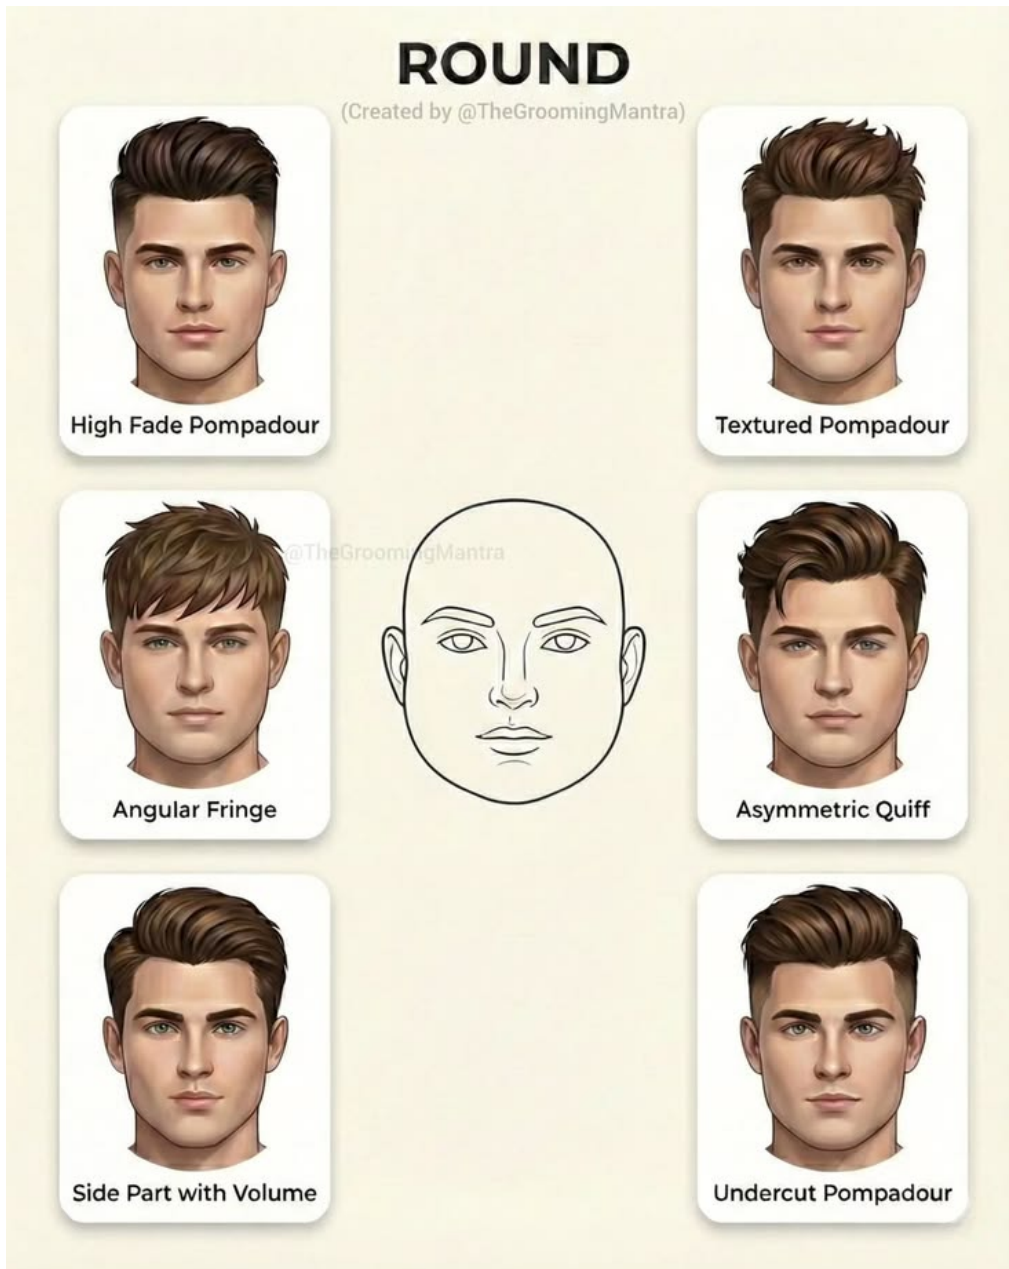

Square Face

A strong, angular jawline and broad forehead. Soften edges with textured tops, crew cuts, buzz cuts, side parts, or a classic pompadour — avoid harsh, boxy cuts.

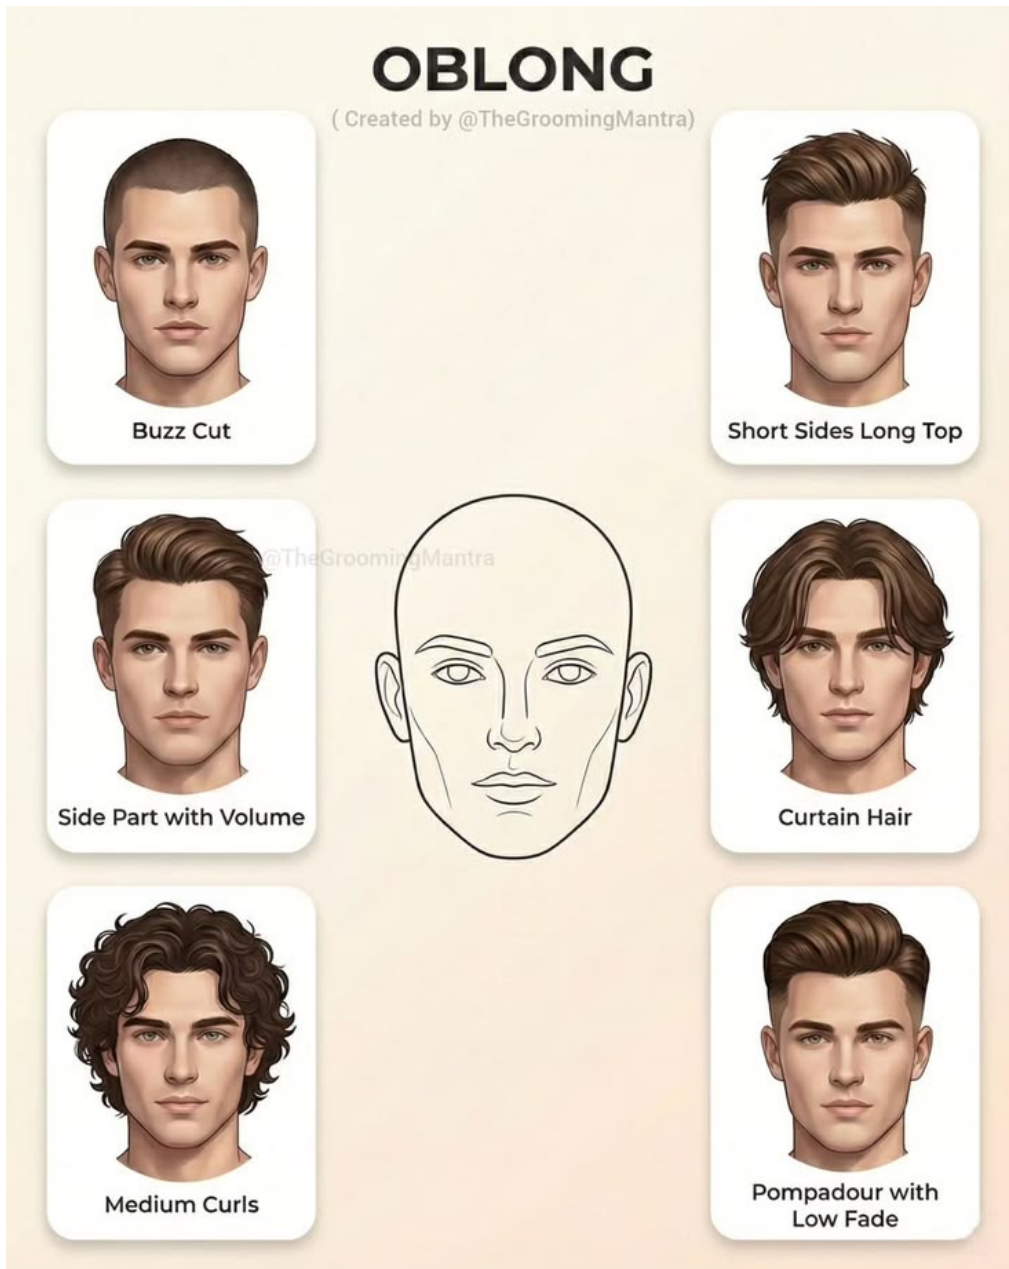

Round Face

Fuller cheeks and a rounded jawline. Add height and angles with a high fade pompadour, textured pompadour, angular fringe, or an undercut — avoid flat, heavy fringes that widen the face.

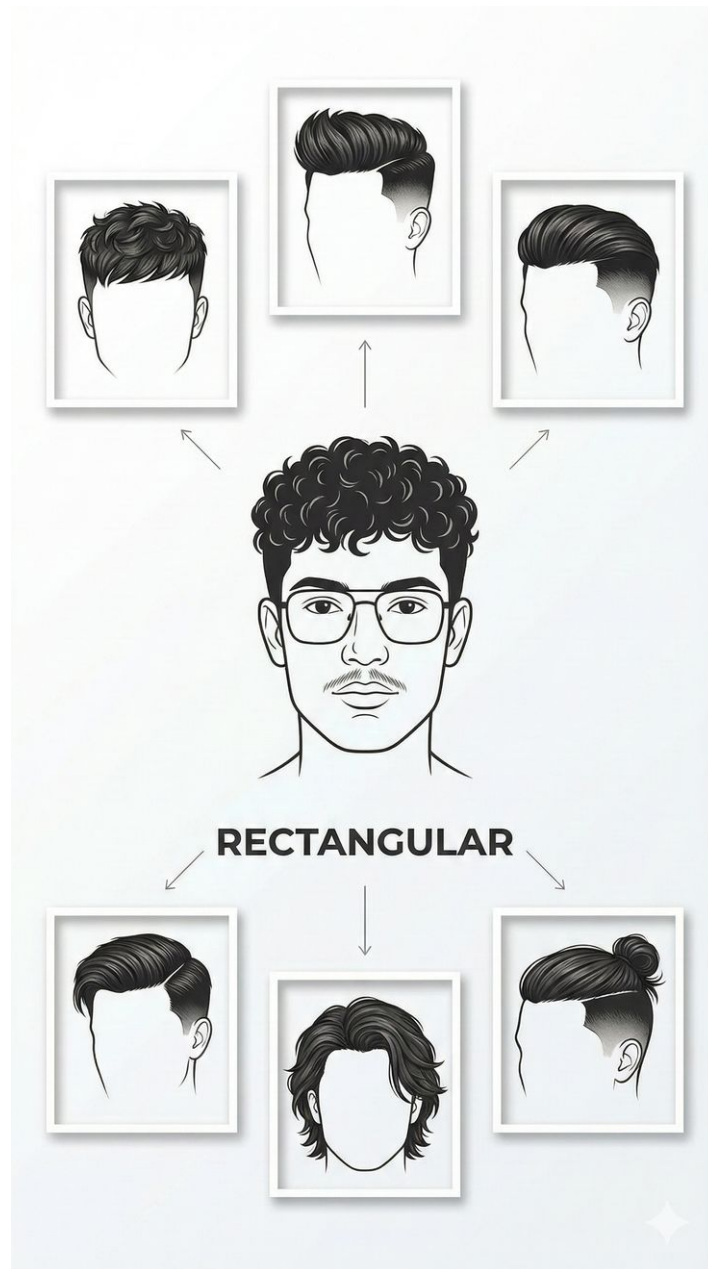

Oblong Face

A longer face with fairly straight cheek lines. Keep some width and avoid too much height on top — buzz cuts, side parts with volume, curtain hair, and medium curls all work well.

Rectangular Face

Similar to oblong but with a stronger jaw — long, straight sides and a defined chin. Textured curls, waves, and styles with width on the sides help balance the length.

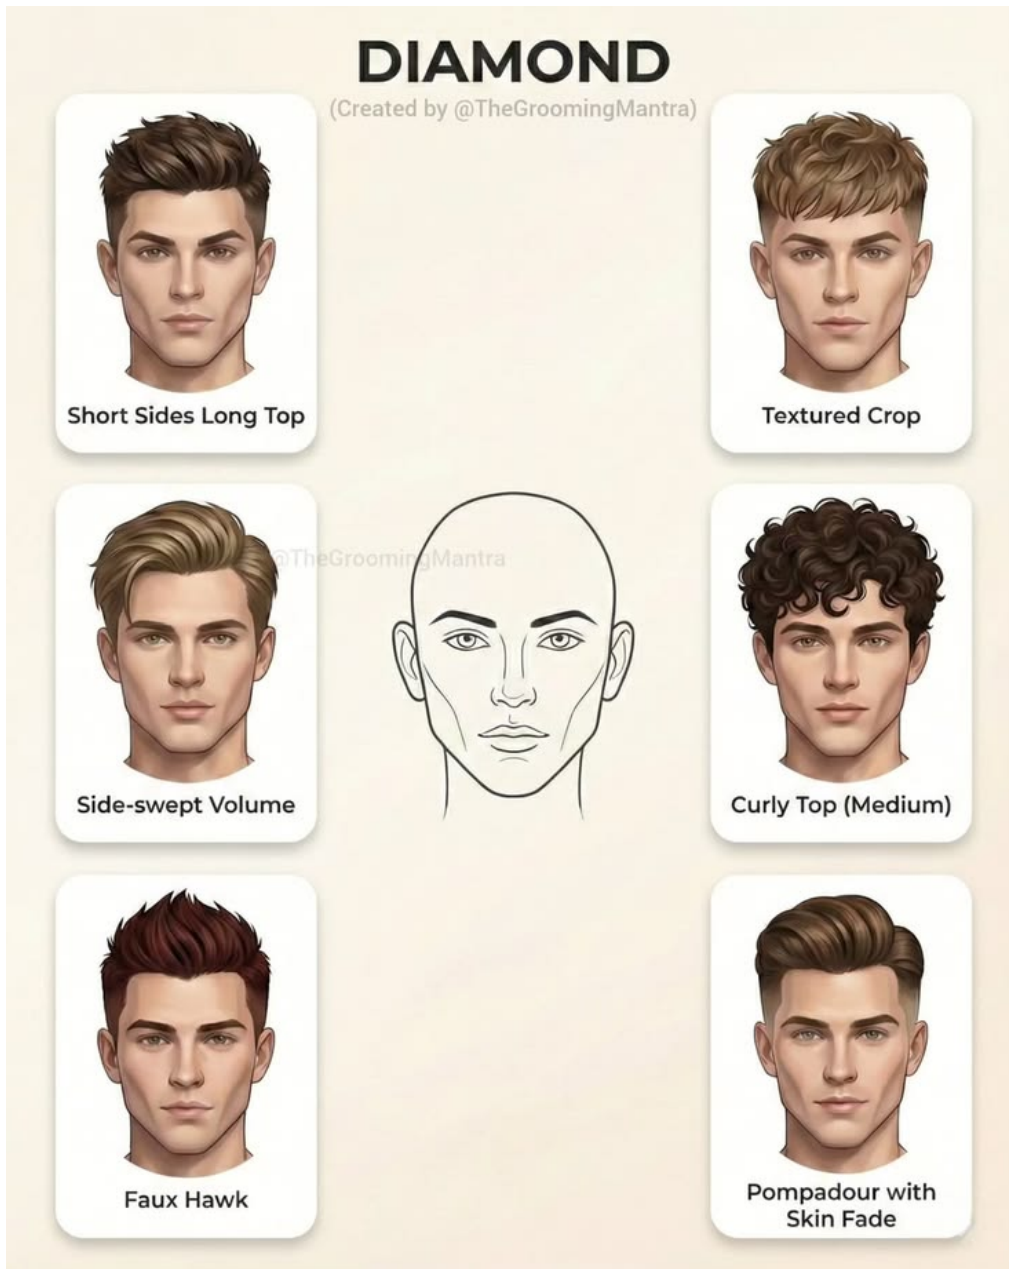

Heart Face

A wider forehead tapering to a narrower jawline. Balance the jaw with a side swept fringe, curtain hair, textured fringe, or a pompadour with gentle sides — avoid very tight sides that emphasize the narrow jaw.

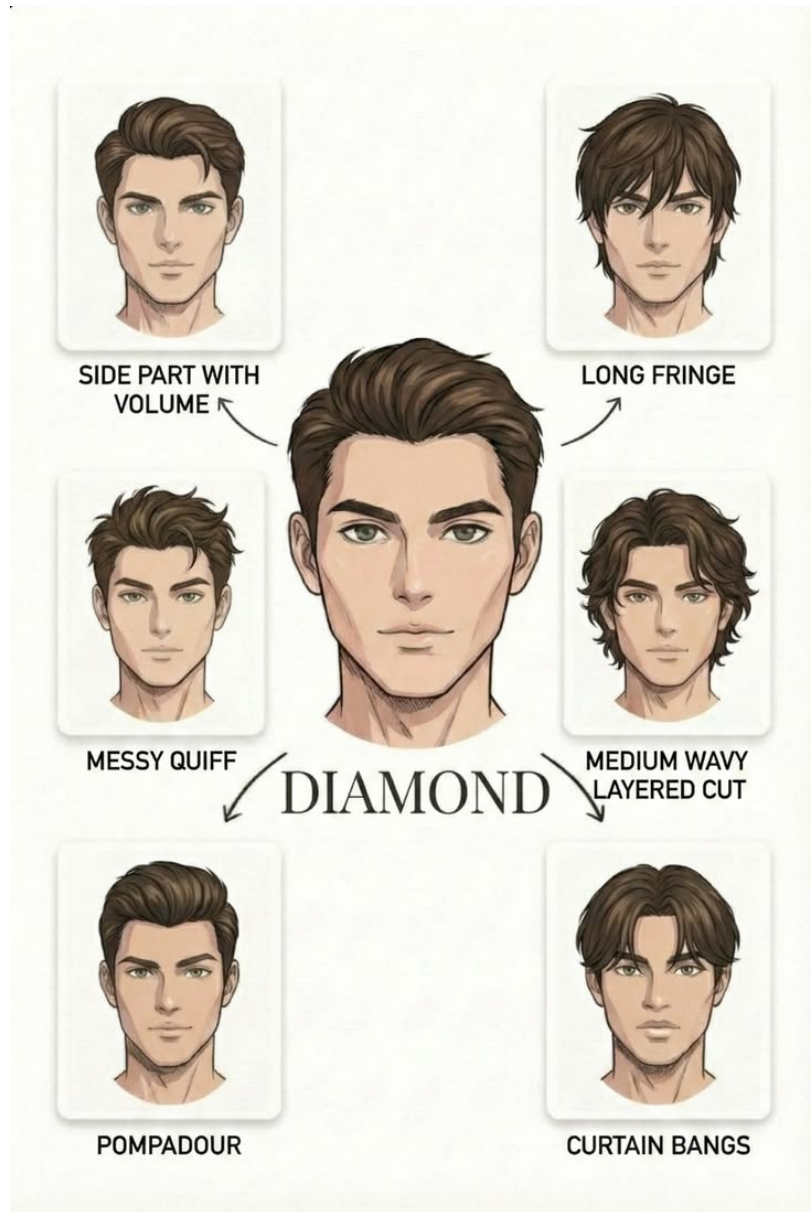

Diamond Face

Wider cheekbones with a narrower forehead and jaw. Textured fringe, a faux hawk, curly top, or a pompadour with a skin fade all soften the cheekbones nicely — avoid overly geometric, sharp cuts.
